

PRODUCT INFORMATION

HD Chemicals – Valvoline Professional Series™ HD

Version: VPS HD3/004

Valvoline™ VPS HD Diesel System Complete

VPS HD Diesel System Complete effectively cleans and restores the complete fuel system of the heavy-duty diesel engine, restoring the engine back to its original power and performance.

VPS HD Diesel System Complete reduces downtime for maintenance by keeping the engine clean, reducing wear, and helping the engine run smoother and more efficiently.

Applications

VPS HD Diesel System Complete cleans and restores the complete fuel system of the heavy-duty diesel engine, restoring the engine back to its original power and performance, without the need for a higher cetane number fuel.

The product emulsifies the condensation water present in the fuel tank and protects against rust and corrosion, while the flow improver guarantees a smooth start-up at cold temperatures.

The chemical composition of the product stabilizes the fuel and prevents fuel aging and bacterial contamination.

Easy to use:

Add VPS HD Diesel System Complete to the fuel tank before refilling. The content of the bottle is enough for 1000 liters of fuel. For special problems, like blocked injectors, black smoke, poor starting etc. you may use a higher concentration, i.e. one bottle on 300 liters of fuel. For preventive maintenance, use one bottle per tank at every service interval.

Features & Benefits

Reduces downtime and maintenance costs

VPS HD Diesel System Complete reduces downtime for maintenance by keeping the engine clean, reducing wear, and helping the engine run smoother and more efficiently.

Superior cleaning

VPS HD Diesel System Complete removes deposits, cleans injectors and restores spray patterns. Additionally, reduces emissions of soot particles caused by deposits and incomplete combustion. Helps maintain cold start-up properties.

Deposit problem solver

For special problems, like blocked injectors, black smoke, poor starting etc. you may use a higher concentration, i.e. one bottle on 300 litres of fuel. For preventive maintenance, use 1 bottle per tank at every service interval.

Lubricates injectors and fuel pumps

Lubricates injectors and fuel pumps if running on low-sulphur diesel.

Universal application

Maximizes power and performance of all heavy-duty diesel engines.

PRODUCT INFORMATION

Keeping the world moving since 1866™

Serving more than 100 countries around the globe, Valvoline is a leading marketer, distributor and producer of quality branded automotive and industrial products and services. Products include automotive lubricants; transmission fluids; gear oils; hydraulic lubricants; automotive chemicals; specialty products; greases, and cooling system products.

Typical properties

Typical property characteristics are based on current production. Whilst future production will conform to Valvoline specifications, variations in these characteristics may occur.

VPS HD Diesel System Complete	
Appearance	Clear liquid
Colour	Bright & clear
Flashpoint PMCC	75°C.
Specific Gravity @ 15°C.	0,905
Storage	Cool & dry

This information only applies to products manufactured in the following location(s): Europe

Health & Safety

This product is not likely to present any significant health or safety hazards when properly used in the recommended application and good standards of personal hygiene are maintained. Reference is made to the Safety Data Sheet (SDS) which is available on request via your local sales office or via the internet <http://msds.valvoline.com>

Protect the environment

Take used chemicals to an authorized collection point. Comply with local regulations. Do not discharge into drains, soil or water.

Storage

We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.
