

Automotive Chemicals - Car Care - Cleaning

Version: CC9/003

Valvoline™ Engine Cleaner

All-purpose aerosol degreaser, quickly penetrating grease, oil, dirt and grime. Cleans engines, lawn mowers and engine parts. A blend of powerful solvents, cleaners and emulsifiers.

Engine Cleaner contains powerful solvents and cleaners to quickly penetrate grease, oil, dirt and grime. Superior detergents then help water wash away the emulsified oil and dirt instantly.

Applications

For use on all engines of passenger cars, vans, trucks, buses, etc. Also suitable for industrial engines and household equipment.

Engine Cleaner contains no chlorinated solvents and is safe to use on concrete driveways, painted concrete or painted blocks.

Easy to use:

Scrape off heavy buildup of grease and grime. For best results, engine should be warm (NOT HOT). If engine is cold, start and let idle until warm. If engine is at full operating temperature (HOT), let it cool for thirty minutes. Cover distributor and carburettor with plastic. Spray Engine Cleaner directly onto surface to be cleaned. Allow to penetrate grease, oil or grime and hose off with water.

Features & Benefits

Superior cleaning performance

Oil, grease, dust and dirt all stick to the oily surface of the engine. If this process is allowed to continue, a thick grimy coating forms. Engine Cleaner contains powerful solvents and cleaners to quickly penetrate grease, oil, dirt and grime. Detergents then help water wash away the emulsified oil and dirt.

Multi-purpose application

All-purpose degreaser. Cleans engines, lawn mowers and engine parts.

Deposit control

Unlike foamy engine degreasers that hold the cleaners away from the surface to be cleaned with air bubbles, Engine Cleaner wets the surface, concentrating all its cleaning power directly on the engine.

Safe to use

Engine Cleaner contains no chlorinated solvents and is safe to use on concrete driveways, painted concrete or painted blocks.

PRODUCT INFORMATION

Keeping the world moving since 1866™

Serving more than 100 countries around the globe, Valvoline is a leading marketer, distributor and producer of quality branded automotive and industrial products and services. Products include automotive lubricants; transmission fluids; gear oils; hydraulic lubricants; automotive chemicals; specialty products; greases, and cooling system products.

Typical properties

Typical property characteristics are based on current production. Whilst future production will conform to Valvoline specifications, variations in these characteristics may occur.

Engine Cleaner	
Appearance	Clear amber liquid
Colour	Amber
Propellant	Propane/butane
Odor	Typical
Application temperature	10-35°C.
Specific Gravity @ 20°C.	0,799
Storage	Cool & dry

This information only applies to products manufactured in the following location(s): Europe

Health & Safety

This product is not likely to present any significant health or safety hazards when properly used in the recommended application and good standards of personal hygiene are maintained. Reference is made to the Safety Data Sheet (SDS) which is available on request via your local sales office or via the internet <http://msds.valvoline.com>

Protect the environment

Take used chemicals to an authorized collection point. Comply with local regulations. Do not discharge into drains, soil or water.

Storage

We recommend to store all packages under cover. In case outside storage is unavoidable, drums should be laid horizontally to avoid the possible ingress of water and damage to drum markings. Products should never be stored above 60°C, exposed to hot sun or freezing conditions.
